Virtual Congress

Scientific themes

- Epidemiology and common health care interventions
- Laboratory medicine and mobile societies in the area of digitalization
- Migration and genetics
- Migration and drug addiction
- Migration and emerging infectious diseases
- Laboratory diagnosis of COVID-19
- Physiopathological mechanisms of thrombotic events linked to COVID-19
- Companion diagnostic tests associated with targeted therapy
- Updates on diagnosis and management of acute coronary syndromes
- Delayed hemolytic transfusion reaction in sickle cell disease
- IFCC TFYS symposium: Young scientists confronting COVID-19 pandemic
- Professional symposium: The new nomenclature of medical biology tests in Tunisia

Pre-Congress workshop

Molecular biology course :

- Next-generation sequencing and its applications in clinical biology
- Nutrigenetics
- Bioinformatics
